

CHRISTIE

CC2 Cooktop Electric

Christie cooktops are premium, self-contained outdoor cooking appliances that can be ordered with our pre-fabricated Modular or A Series benches, or installed in any custom structure that meets relevant safety standards.

Our CC2 cooktop won a Good Design Awarded in 2016 and represents the latest evolution in our ongoing development of the ultimate energy-efficient, long-lasting barbecue.

KEY FEATURES:

- Mono-pressed, marine-grade stainless-steel hotplate with high contact element for exceptional heat dispersal and ease of cleaning
- 3.5kW High Efficiency design, engineered for repeat and continuous cooking
- Unique sterilisation cycle for ultimate cooking safety and hygiene
- Highly sensitive micro-processor and control program that accurately maintains the optimum cooking temperature while conserving energy
- Intelligent self-diagnostics with fault codes and flashing warnings
- Aluminium shield reflects 80% of radiant energy from the underside back to the hotplate
- Fast, low cost “plug and play” connection for ease of installation and servicing
- Guaranteed parts and dedicated service support Australia-wide

POWER SPECIFICATIONS: **Connection:** 15A 3-pin plug, for “plug and play” use with any weatherproof 15A socket

Weight: 19kg
